## About Us

**PEK TECHNIC** located in 7.000 m2 closed area embodying Tool shop, Metal Injection Machines, CNC Turning and Vertical Machining Centers, Eccentric Presses, Surface Treatments Machines and Assembly Department is an integrated casting and finishing plant. Automotive Industry Products are % 70 of our total production and include products such as Vacuum Pumps, Motor Oil Coolers, Rocker Arms, Oil Spray Jets and various other spare parts for Passenger and Light Commercial Vehicles for Aftermarket. The remaining product range is Die Casting Components for OEM Automotive Industry, Lighting Industry, White Goods & Small House Applications Industry and other machine parts Industry.

**PEK TECHNIC** is certified by International standards ISO 9001:2015 and ISO/TS 16949:2016 and accept "LEAN PRODUCTION" and always aims "ZERO DEFECT" with special measuring devices..

**VISION:** To be one of the leader companies in the automotive and die casting sector influencing international market.

**MISSION:** To serve best quality to customers focusing customer satisfaction, demand and expectations.

## Quality Policy

### WE COMMIT THAT;

- # Defining quality and environmental system, certifying this system and continuous improvement.
- # Reviewing and evaluating business processes by developing performance and defining necessary preventive actions.
- # Increasing effectiveness of all the process by focusing continuous improvement .
- # Consuming natural resources and all energy resources optimum.
- # Decreasing pollution level maximum.
- # Following all legal rules and regulations related of the Environmental Management System.

Quality Management System (QMS) standards have been defined at **PEK TECHNIC**. Top management has defined legal and customer conditions to ensure QMS implementation, development and continuous improvement of the effectiveness.

**PEK TECHNIC** defined its quality policy, sets the quality targets and provides all the resources. In addition, **PEK TECHNIC** defines all the job description responsibilities and authority in the organization.

At **PEK TECHNIC**, process performances are continuously measured, reviewed and analyzed. **PEK TECHNIC** has qualified ISO 9001:2008 Quality Management System since June 2014 and IATF 16949:2016 since May 2017. All of the measurement equipments which were listed below are calibrated every year by accredited organizations.

ENGINE SPARE PARTS  
PARTNER

## Departments

**PEK TECHNIC** embodying Tool house, Metal Injection Machines, CNC Turning and Vertical Machining Centers, Eccentric Presses, Surface Treatments Machines and Assembly Department is an integrated casting and finishing plant.

### Metal Injection Molding Department

There are Cold Chamber Metal Injection Machines ( 100-750 ton) in this department. Aluminum and Zamac Alloys are consumed as raw material in this department.

### Press Shop Department

There are eccentric and trimming presses cutting and bending sheet metals in this department.

### Machining and Finishing Department

There are CNC Turning Machines, CNC Vertical Machining Centers, CNC Tapping Centers and different types of machining and finishing machines in this department.

www.pektechnic.com

### Tool House Department

Our tool house has skilled personal and high quality machine equipment to produce tools and die for the plastic – metal injection machines and cutting-bending sheet metal for the eccentric presses. Because we have tool house in our factory, our production costs decrease and productivity increase.

### Surface Treatment Department

There are vibration and Tumbling Type – Shot Blasting Machines in this department.

### Assembly

Assembled brake and engine spare parts are produced for the Aftermarket Automotive industry.

# VACUUM PUMPS
